Any views expressed are those of the individual quoted, and not necessarily those of the publisher. The publisher can accept no responsibility for any errors or omissions made, but will endeavour to amend any, that are brought to our attention, in a future issue.

Welcome to our monthly eMagazine, an official PCN publication which includes articles on Member's projects, the latest companies to join, reminders of membership tools and official updates.

Distributed to both our internal readership of 10,000+ staff worldwide and also accessible to the 5000+ visitors per month to our website. We also invite external companies to subscribe and currently over 500 industry executives engaged in energy, construction, shipping, and ancillary industries have asked to regularly receive a copy. Please feel free to subscribe and each issue will be delivered straight to your inbox.

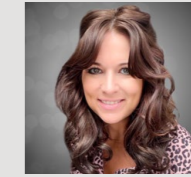

To see the very latest news, please see the News section of our website or projectcargoblog.com.

We are delighted by our continued strong growth - scan this QR code to see our impressive association which has a global reach of over 120 countries. However, we are more impressed with the amount of business and projects that our members collaborate on. It is why we exist! We can't wait to see our friendly and professional global family at our 12th Annual Summit from 12-14 November in Thailand - see page 11.

Enjoy this issue.

TECHNICAL EXPERTISE & PROJECT KNOW-HOW FROM PNS NETWORKS

We are pleased to introduce PNS Networks as new members in South Korea. They are specialised in project and bulk cargo with broad logistics knowledge and capabilities. The company hold AEO and ISO certification with headquarters in Seoul and additional offices in Busan and Incheon Airport.

Eric Song of the project team introduces our latest member; "PNS Networks is dedicated to global integrated logistics services. Growing steadily since our beginnings in 2007, we have established a firm foothold in the logistics industry and offer various logistics support services including project and bulk cargo by sea, international railway, ground and air as well as customs clearance and warehousing.

We provide customised project logistics services tailored to the individual needs of each project and work tirelessly to offer the most competitive

rates and ensure prompt and safe deliveries. We are capable of handling the entire process of a project, from the planning and production stage through transportation to on-site assembly, installation and construction.

Through distinctive skills and extensive experience in handling heavy equipment, plant & construction materials, power & energy cargo and steel products, we have developed our technical expertise and project know-how over the years and look forward to making partnerships with the other specialised PCN members."

We wish a warm welcome to our latest PCN members and look forward to meeting in person at the 2023 Annual Summit in Thailand!

Some of the PNS Networks project experience can be downloaded here.

FREIGHT IN TIME ENJOY SUCCESS WITH NEW SEA-AIR SHIPMENT SERVICE

Freight in Time are pleased to announce the success of their recently launched Sea-Air Service, which has garnered a positive response from the market with its largest shipment to date of 11 tonnes.

"Our solution of Sea-Air Service provides a seamless integration of sea and air cargo transportation."

The shipment consisted of a variety of goods, including personal effects, household goods, telecom equipment, healthcare, food, and US military spare parts, transported from Djibouti to Kano, Lagos, Johannesburg, Mogadishu, and the USA.

Freight in Time's team worked closely with their clients to tackle challenges related to customs clearance, documentation requirements, security checks, and compliance with regulations for cargo that was shipped via sea freight from China to Djibouti, before being transported via Ethiopian Airlines charter.

This successful delivery, carried out on behalf of IDIPO Free Zone and the US Navy, highlights Freight in Time's innovative approach to designing tailored solutions for clients with specific sea-air cargo transportation needs.

"Our ultimate goal is to facilitate swift and secure international trade and commerce across all borders."

REGIONAL EXPERTS IN PERU - ASIAN WORLDWIDE LOGISTICS

Asian Worldwide Logistics (AWL) are new PCN members in Peru! Focused on project cargo and local experts in the Peruvian logistics industry, they have experience in managing a varied range of projects including construction, oil & gas, mining & minerals and aircrafts. Their head office is close to Callao Port with an additional office in Lima.

Commercial Manager, Martin Velasquez says they are joining PCN "... to find strong partners in project cargo to develop long-term business relationships & new opportunities and to show our expertise. We are keen to participate as an active member and provide full support to the worldwide partners for their projects and any other kind of business"

General Manager, Enrique Llontop continues by introducing the company; "Asian Worldwide Logistics have a professional, proactive and experienced team offering our customers and partners the best logistics solutions. We are always focused on developing new business opportunities worldwide and we specialise in project management, heavy lift & oversized cargo, breakbulk and chartering as well as shipping & freight forwarding (air & ocean), road transport (national & international), customs clearance, warehousing and insurance."

"Our comprehensive, creative & personalised solutions and high-quality operational processes are based on our extensive knowledge, experience and excellent management of information."

CEO, Moises Uyeda adds; "In AWL, you will find a trustworthy, reliable and

secure partner in project cargo with a team of experienced professionals. We thank PCN for the opportunity to be part of the prestigious network and we are sure that we will not only achieve good business, but also a establish great long-term friendships."

Some recent projects handled by Asian Worldwide Logistics are featured here including a helicopter loaded on a IL-76 aircraft at Lima Airport.

COMPLETE PROJECT FORWARDING SERVICES FROM MPK FREIGHT

We are pleased to welcome MPK Freight as new members in Malawi. The company is almost 20 years old and based in Blantyre. They offer complete project forwarding services with established and professional experience in moving OOG cargo.

Louis Uko (Business Development Manager) comments; "MPK Freight integrates all logistics requirements for a project and provide our services in a timely, diligent and professional manner. Whether by road, rail, sea, air or multimodal, we organise total logistics solutions for any sizable project or heavy & OOG cargo."

"We are looking forward to working with all members of the network and keen to show our expertise."

A recent project handled by MPK Freight involving two mine trucks and their spare parts are photographed here.

MGL CARGO COLLABORATE WITH ABL BELGIUM ON SHIPMENT

MGL Cargo Services, our members from Egypt, recently cooperated on a cross-booking shipment with fellow PCN-member ABL Belgium. The cargo was received and loaded in Antwerp to be delivered to the Port of Matadi, in the Democratic Republic of the Congo.

This shipment featured dimensions of 12.5 (L) x 2.6 (W) x 3.9 (H) meters and weighed a hefty 52,000 kilograms.

MGL Cargo covered a scope of work for their part in this joint project, including:

- Booking a breakbulk vessel
- Documentation
- Port operations
- Handling

This shipment was made a success thanks to the due diligence of both teams involved.

CUCHI SHIPPING DELIVER FOR CLIENT IN THE OIL & GAS FIELD

Cuchi Shipping, our members from Vietnam, are glad to share a recent shipment that they just completed for one of their clients in the oil & gas field.

The shipment involved out-of-gauge cargo which was trucked cross-border from Danang Base in Vietnam to Songkhla Base, Thailand.

Cuchi Shipping Co Ltd was established in the 1990's with their Head Office located in Hochiminh City and Branch offices in Hanoi City, Haiphong City, Danang City and Vungtau City.

RELIABLE & PROFESSIONAL PROJECT HANDLING AT ACCIONA FORWARDING

We are pleased to report ACCIONA Forwarding are new PCN members in Spain. They hold ISO and OEA certification with a extensive reach of offices across the country. With efficient and productive management tools that optimise transport, ACCIONA Forwarding ensure the reliable and professional handling of complex projects.

“ACCIONA Forwarding specialises in international project cargo logistics and forwarding solutions by air, sea and land. As well as our comprehensive services and diverse experience, we also benefit from preferential agreements with the main shipping companies and important airlines.”

Recent wind energy and construction projects handled by ACCIONA Forwarding are photographed here.

EASTSHIP TRANSPORT BUSES FOR SUSTAINABILITY PROJECT

Eastship, our members from Romania, are glad to share news of a new project they have undertaken in Bucharest involving green public transportation.

The company will be transporting thirty electric buses over the following week to Romania's capital to aid in the elimination of harmful emissions.

“This is a huge step forward in reducing carbon emissions and promoting eco-friendly travel!”

Eastship are pleased to be supporting this effort, and are due to be involved in the transport of another seventy electric buses!

LIVO LOGISTICS CARRY OVERSIZED HEAT EXCHANGERS TO INDIA

Livo Logistics are grateful to share news from their Italian branch about the successful transportation of over-sized heat exchangers, delivered from Northern Italy for a hydrogen manufacturing plant in India.

Two heat exchangers were present in this shipment, along with their accessories and spare parts, which were carried in a 40' open top container.

Livo Logistics are also members in the Czech Republic. Their Italian offices are located in Livorno and Milan and their management team has decades of experience in project cargo transportation.

SPECIALISTS IN EXCEPTIONAL LOADS - ATS NETHERLANDS

We are pleased to announce ATS Netherlands are new PCN members. They are specialists in handling project cargo and transporting exceptional loads.

Roderick Kessels (General Manager) comments; "ATS Netherlands have proven expertise and successful results in project cargo, exceptional transport and time-critical solutions.

We offer customer-specific solutions for any form of transport and regardless of the complexity of the project. Using a dynamic and flexible approach with strong communication, our project logistics services are efficient and reliable.

We are honoured to become PCN members and are keen to develop new collaborations with the worldwide partners."

Some recent work from ATS Netherlands are photographed here including rail-wagons and cranes.

EASTSHIP CONTRACTED AS LOGISTICS PARTNER IN PLANT BUILD

Eastship, our members from Romania, are pleased to report on a project they recently undertook, contracted as logistics partners.

This project involves the transportation of gas turbines for a new cogeneration plant that has nearly reached completion.

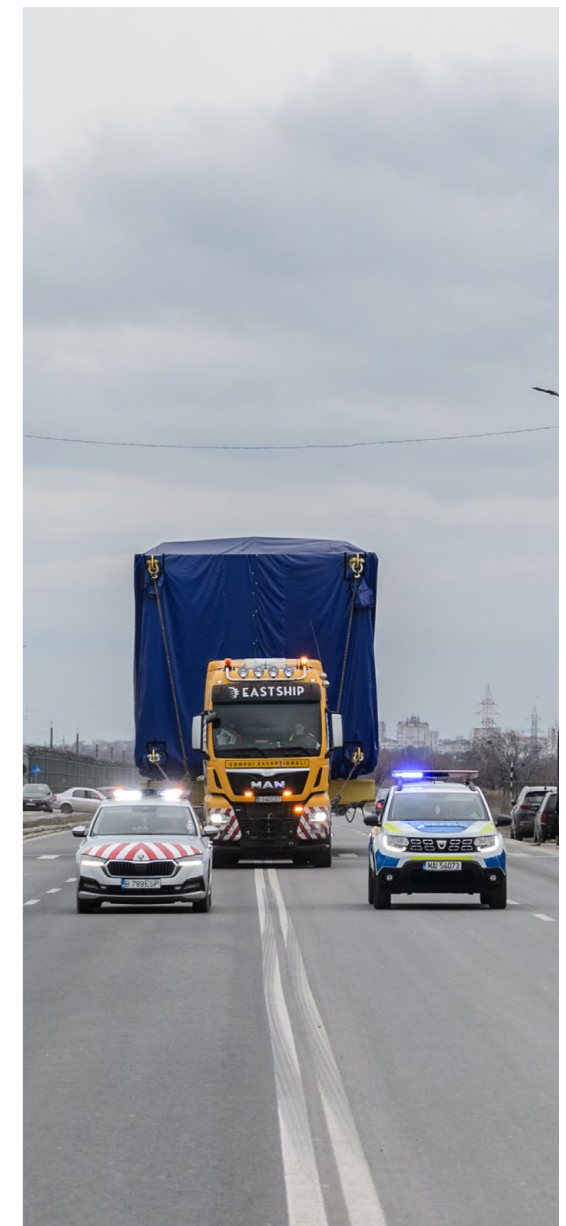

Arguably the most essential piece of equipment for the cogeneration plant, the two SGT-750 gas turbines that Eastship delivered, will be used to transform natural gas into electricity.

Boris Bucur, General Manager of Rompetrol Energy, had this to say of the project:

“The installation of the turbines was one of the most important steps in the construction of the cogeneration plant, a large-scale project that will allow us to create a viable energy solution for the Petromidia platform, but also our National Energy System.”

The new power plant will generate approximately 80 MW of electricity - of which approximately 60-70 MW will be used for the consumption needs of the Petromidia platform.

“At the moment, the project is more than 80% completed.”

TERA SHIPPING DELIVER TO KOREA FOR OIL & GAS INDUSTRY

Tera Shipping, our members from Malaysia, are glad to share an update of a recent movement they executed within the oil & gas industry.

Their project team picked up the cargo from their client's location, featuring nine packages with a total weight of 643 MT and a volume of 3,614 cbm.

The largest piece of cargo was measured at 18.5 (L) x 15.0 (W) x 12.7 (H) meters and weighed 605 tonnes. This was specially transported using an SPMT to a private jetty nearby before being loaded onto a barge.

It was then carried by barge to the nearest port at Port Klang West to be loaded with a double banking operation onto an HLV that Tera's team chartered.

The hefty unit was secured on deck, fastened and set sail to its destination: Sungdong Shipyard in Korea.

FREIGHT IN TIME INTRODUCE NEW 'EXPRESS' COURIER SERVICE

Freight in Time, PCN Members in East Africa, are happy to share the launch of a contemporary courier service covering imports, exports and domestic deliveries.

"Our local expertise and relationships with global courier providers enable us to offer you competitive rates and transit times to any destination. Plus, with our experienced customer service and operational teams, we prioritize your shipment every step of the way."

The key benefits of Freight in Time's new courier service, FIT Express, include:

- Access to competitive rates and transit times to any destination.
- Rapid response times for rate requests and shipment follow-ups and status reports.
- Pick up and drop off services to and from wherever you are in Kenya.
- A one-stop shop for all your import, export, and domestic courier needs, as well as freight, warehousing, and distribution services.

"Seeing an opportunity to provide enhanced services at better prices by expanding our global courier partnerships, we are proud to launch FIT Express in Kenya."

LIVO LOGISTICS TRANSPORT BELT CONVEYOR EQUIPMENT TO QINZHOU

Livo Logistics are glad to share a successful shipment that their branch in Livorno, Italy recently completed.

The cargo of this transport consisted of approximately 2,000 cbm of belt conveyor equipment. This shipment was loaded in Italy via the Port of Genoa, before being shipped to Qinzhou, China for the final stretch to its on-site destination.

Livo Logistics are also members in the Czech Republic. Their Italian offices are located in Livorno and Milan and their management team has decades of experience in project cargo transportation.

STAR SHIPPING WITH BREAKBULK PIPELINE PROJECT FROM KARACHI

Star Shipping, our members from Pakistan, have been completing shipments for their country's energy, civil, mining, oil & gas, trade and industrial sectors. Their most recent shipment of breakbulk cargo comprised of steel structures, pipes and bundles.

It was discharged in Karachi Port before being delivered to a project site in central Punjab, Pakistan. The scope of work Star Shipping covered for this project included the shipping of the cargo from the Port of Loading in China, to the Port of Discharge in Karachi.

Additionally, they received and handled the cargo before onward transportation from Karachi Port to their client's project site.

"We are glad to report this recent success, and look forward to a prosperous future ahead of this tough economic year."

AN EXPERIENCED & DEDICATED PROJECT CARGO TEAM AT CELERO

We are pleased to approve CELERO as new PCN members in Mauritius and Madagascar. The company is ISO certified with an experienced team dedicated to project cargo. Providing a wide scope of services, they are heavily focused on project cargo logistics, with the necessary knowledge, structures and equipment to carry out complex operations.

Mr. Jean-Alain Marie-Louise (Logistics Manager) comments; "Established in 2009, CELERO is an independent logistics group operating in project cargo, shipping services and forwarding.

Based in Mauritius with a strong presence in Madagascar, we have extensive experience in the logistics field of the region."

"We offer a range of special project services by sea, road & air. No matter the place, the complexity of the project, or the extreme dimensions, we can handle the transport of any heavy lift or oversized cargo."

Some recent projects successfully handled by CELERO have included vessel charters & logistics for the construction industry, logistics services to oil rigs, project management for a new private hospital, flight charters & logistics for oversized cargo plus many more.

RETEMS LOGISTICS SHARE VOLUME ON 2023 PROJECTS

RETEMS Logistics, our members from Azerbaijan, are pleased to share with us the total volume of breakbulk and oversized/overweight shipments which they delivered during the first quarter of 2023.

A total of eight charter vessels were shipped, with main items of cargo collected from China, Korea, India, Italy and Turkiye. The heaviest item amongst these weighed 210 tonnes and more than six units featured diameters over 6 meters.

The total volume of all the projects measured 30,000 CBM.

During these projects, RETEMS Logistics covered services such as:

Coordination with port & vessel operations

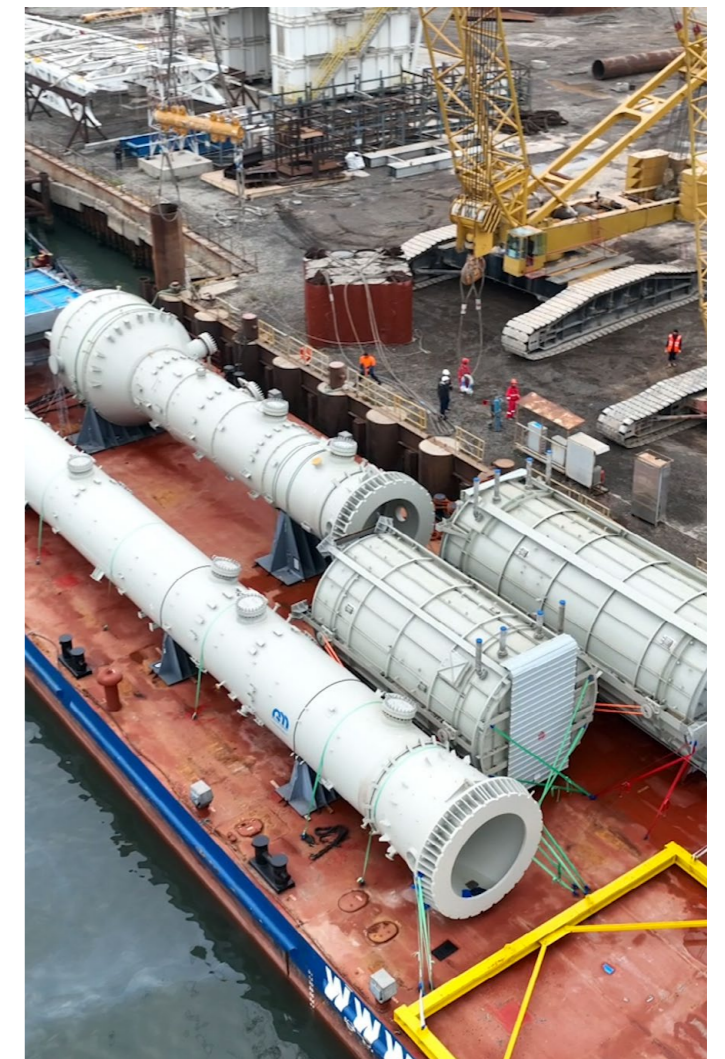

- Route surveys & method statements
- Export/import customs clearance
- Obtaining special permissions
- Full/part chartering
- Port documentation
- Breakbulk, RO/RO
- Civil works

They also encountered some difficulties:

The delivery of goods through the Volga-Don Canal proved challenging during the current period of hostilities between the Russian Federation and Ukraine in the Black Sea.

Furthermore, the movement of cargo ships through the Kerch Strait was and remains temporarily closed. However, within a month, RETEMS Logistics were able to obtain permission to pass under the Crimean Bridge with their cargo, allowing all the equipment to be delivered to the final destination.

“We believe that such projects raise the level of professionalism for RETEMS Logistics, and we thank all our partners who offered great support.”

W.I.S. ITALY CONTRACTED FOR OVERSIZED MOTOR MOVEMENT

W.I.S. Italy were recently awarded a contract to transport eleven oversized cases of motors from Moenchengladbach, Germany to Kazakhstan.

The larger units required transport permits, being measured at 331 cm wide and 390 cm high. From Germany, all cases had to be transported individually on low-loaders.

After loading, the trucks proceeded to the Port of Sete in France to board the ferry to Istanbul. Once there, the cases were transshipped within a customs bonded facility.

The trucks then took a route from Turkiye to Georgia, Azerbaijan (via ferry from Baku to Kazakhstan) and on to their final destination. The total transit time will be within 23-30 days.

W.I.S. are highly specialized in oversized transport; from anywhere in Europe, to CIS countries such as Kazakhstan, Uzbekistan, Turkmenistan and others.

BLUE BELL SHIPPING COMPLETE BREAKBULK SHIPMENT FROM HAMRIYAH

Freight in Time, PCN Members in East Africa, are happy to share the launch of a contemporary courier service covering imports, exports and domestic deliveries.

"Our local expertise and relationships with global courier providers enable us to offer you competitive rates and transit times to any destination. Plus, with our experienced customer service and operational teams, we prioritize your shipment every step of the way."

The key benefits of Freight in Time's new courier service, FiT Express, include:

- Access to competitive rates and transit times to any destination.
- Rapid response times for rate requests and shipment follow-ups and status reports.
- Pick up and drop off services to and from wherever you are in Kenya.
- A one-stop shop for all your import, export, and domestic courier needs, as well as freight, warehousing, and distribution services.

"Seeing an opportunity to provide enhanced services at better prices by expanding our global courier partnerships, we are proud to launch FiT Express in Kenya."

ELEMENT LOGISTICS DELIVER STEAM SYSTEMS TO UZBEKISTAN

Element International Logistics are glad to share a report of two steam boilers & burners that they recently shipped from Turkiye to Uzbekistan.

"We specialise in industrial projects and our experience covers a wide range of different cargo, industries and locations."

The shipment was completed using lowbed trucks, with the dimensions of the cargo being measured at 10.70 (H) x 3.20 (W) x 3.80 (H) meters and a weight of 32,000 kg.

Element International Forwarding & Logistics have 10 offices across Turkiye and started business in 2002.

SEA HORSE LOGISTICS DELIVER ABNORMAL LOAD ACROSS 1,500 KM

Sea Horse Logistics, our members from Uganda, are pleased to report on a movement they recently concluded for an abnormal cargo load from Kenya.

The shipment was received at Mombasa Port to be delivered to a site in Luwero, Central Uganda - a distance of approximately 1,500 kilometres.

The cargo itself was out-of-gauge and came in two parts weighing 85 MT. Due to the abnormal weight and size, the journey from Mombasa Port to the site took 31 days.

"We are proud to have successfully handled such large cargo."

EZ LINK & HACKLIN LOGISTICS EXECUTE OOG CARGO MOVEMENT

EZ Link, our members from Taiwan, recently cooperated with Hacklin Logistics - fellow PCN members from Finland - to execute a time critical shipment between their respective countries.

Their client's request involved a yacht with measured dimensions of 8.35 (L) x 2.59 (W) x 2.90 (H) meters, and weighed 2954 kilograms.

Hacklin Logistics received and loaded the cargo onto a low-bed trailer at the site and arranged the delivery to the carrier's warehouse for re-loading onto a 40' flat rack container. It was then shipped from the Port of Rauma in Finland by feeder vessel to be connected to the mother container vessel at Hamburg Port before onwards shipping to Kaohsiung Port in Taiwan.

Due to the tight scheduling of the shipment, EZ Link and Hacklin provided

their client with the most suitable solutions to ensure a timely arrival, despite Hacklin facing disruptions of a stevedore strike; as well as a shortage of 40' flat rack equipment in the ports of Finland.

Both members kept their supplier and consignee informed & updated of all situations, including the status of the strikes and their impact on the cargo transportation.

"By the great cooperation and communication between EZ Link and Hacklin, the clients were satisfied with our offering of 'timely and reliable service!'"

SHIPWAY COMPLETE MOVEMENT OF RADAR SYSTEM TO NIGERIA

Shipway, our members from Argentina, were recently involved in an air freight shipment of two large units from Bariloche, Argentina to Abuja, Nigeria.

The main unit was a radar system with dimensions of 6.10 (L) x 2.44 (W) x 2.59 (H) meters and a weight of 6,500 kilograms, whilst the secondary unit was an operators shelter which featured the same dimensions but a greater weight of 7,650 kilograms.

Both units were moved from their client's premises to the international airport of San Carlos de Bariloche, due to be loaded into a Hercules C-130 provided by the Argentina Air Force.

The Hercules made three technical stops before reaching the final destination as follows: Iguazu (AR), Natal (BR), Cape Verde (CV) and finally Abuja (Nigeria).

Shipway's scope of operations included full coordination and services from the client's premises in Bariloche, all the way up to the final destination in Abuja, including:

- Labelling cargo and issuing documentation of dangerous goods
- Loading of aircraft and dealings with airport authorities
- Full coordination with the Argentina Air Force
- Aircraft discharging operations in Abuja
- Trucking, cranes provision
- Customs clearance
