Project Cargo Network cannot take responsibility for the opinions, statements and/or facts expressed in the stories, that are contained in this publication. Any views expressed are those of the individual quoted, and not necessarily those of the publisher. The publisher can accept no responsibility for any errors or omissions made, but will endeavour to amend any, that are brought to our attention, in a future issue.

Welcome to our monthly eMagazine, an official PCN publication which includes articles on Member's projects, the latest companies to join, reminders of membership tools and official updates.

Distributed to both our internal readership of 10,000+ staff worldwide and also accessible to the 5000+ visitors per month to our website. We also invite external companies to subscribe and currently over 500 industry executives engaged in energy, construction, shipping, and ancillary industries have asked to regularly receive a copy. Please feel free to subscribe and each issue will be delivered straight to your inbox.

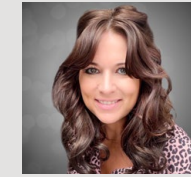

To see the very latest news, please see the News section of our website or projectcargoblog.com.

We are delighted by our continued strong growth - scan this QR code to see our impressive association which has a global reach of over 120 countries. However, we are more impressed with the amount of business and projects that our members collaborate on. It is why we exist! We can't wait to see our friendly and professional global family at our 12th Annual Summit from 12-14 November in Thailand - see page 26.

Enjoy this issue.

GOODRICH NOMINATED FOR RESIDENTIAL PROJECT IN KAZAKHSTAN

Goodrich Central Asia were recently nominated for a residential construction project in **Kazakhstan**, with the specific task of transporting delicate **battery moulds**. The dimensions of the cargo meant they had to be transported vertically with a height of **3.8 meters** and a weight of 35 MT per truck.

Also, there was to be no reloading of the trucks due to the delicate nature of the moulds.

Due to the current geopolitical circumstances, Goodrich utilised an alternative route from Udine in Italy, through Turkiye, to the final destination in Kazakhstan.

"We satisfied our client's requirement of no reloading and using the 'Central Corridor.'"

LOGISTICS PLUS TRANSPORT 4,500 HORSEPOWER ENGINE TO NEW YORK

Logistics Plus, our members from **India**, are pleased to report a successful shipment they recently completed for a key client in the **United States**.

The cargo consisted of a 4,500hp diesel engine, weighing **21 tons**.

The shipment was handled by Logistics Plus from India to New York, USA.

"Thanks to the teams involved who made this transport safe & successful!"

NONPAREIL COLLABORATE WITH WRL SHIPPING ON TRACTOR SHIPMENT

Nonpareil International are glad to share a successful shipment from the Philippines to Australia they recently completed with the cooperative efforts of **WRL Shipping**. The cargo, a Caterpillar tractor and its accessories, were weighed at **19,500 kg** with a volume of **69.9 CBM**.

The dimensions of the tractor measured **6.5 (L) x 3.2 (W) x 3.3 (H) meters**.

Nonpareil International received the tractor locally in the Philippines via truck before loading it onto a 40' flat rack. The company handled lashing, securing and canvassed the cargo before escorting it to the **Port of Batangas**.

After setting sail, operations were taken over in **Sydney** by **WRL Shipping** who moved the cargo onward to its final destination.

ANKER LOGISTICA COORDINATE MOVEMENT OF POWER GENERATOR

Anker Logistica are pleased to report a shipment they recently completed involving a **power generator**, which travelled from **Houston, Texas** to **Cartagena, Colombia**. The ex-works shipment was first transported from the supplier to **Houston Industrial Terminal**. Anker coordinated the pick-up and customs processes, before completing an international transport to Cartagena.

The total volume of the cargo was measured at **914 CBM**, with a weight of **128 tons**.

Later on in Colombia, Anker handled all local cargo receiving operations and challenges, making the final delivery to a happy client.

LOGISTICS PLUS MOVE WINDMILL TURBINE PARTS TO THE NETHERLANDS

Logistics Plus, PCN members in India, recently completed the delivery of windmill turbine parts to the Netherlands for a key client. The cargo was received locally in India by the company before being transported to the Netherlands.

Each set of the turbine parts weighed **twenty-two tons**, with Logistics Plus shipping a total of three sets.

"This shipment was awarded to us on a Door-to-Door basis; right from picking, along with industrial packing of the cargo, to door delivery at the final destination."

ANKER LOGISTICA DELIVER A HEAVY COMPRESSOR TO CARTAGENA

Anker Logistica y Carga are glad to share a recently handled project involving a **heavy compressor**, which was moved from **Houston Terminals** to **Cartagena, Colombia**.

The total volume of the cargo in this shipment measured at **418 CBM**, with a weight of **81 tons**. The compressor was an ex-works service between an important supplier and Houston Terminals, where Anker Logistica conducted pick-up, customs processes and a complete international transport to Colombia.

Upon arrival in Cartagena, Anker secured the compressor, confirming all local cargo receiving & customs processes. Despite challenges due to regulations changing in Colombia, Anker efficiently handled the operations.

"At the end of the day, we managed the cargo with benefits to our consignee and confirmed a 100% successful shipment for the client."

POLARIS COMPLETE PROJECT SHIPMENT OF HEAVY SHREDDER

Polaris Shipping Agencies are very pleased to report the completion of their latest project, involving the delivery of a **Lynx Heavy Shredder** complete with a **motor-driven machine**.

The motor-driven machine was dismantled locally in the United Arab Emirates before being delivered to its new premises located around 55km from the **Port of Houston** in the United States. Polaris' experienced project team were awarded the relocation project of the shredder.

The company's scope of work included identifying each item against a material list provided by OEM engineers, dismantling of OOG packages, industrial packaging for safe transport, marking individual items, pre-carriage operations as well as final transportation to the client's door.

The project, completed under a strict delivery schedule, was shipped with the base machine of **54 MT** as breakbulk on a container vessel, alongside balance packages of approximately **1,980 freight tons**, which were stuffed and lashed suitably in assortments of 40' high cubes, open tops and flat racks to ensure the cargo is within their client's budget, whilst also not compromising on the delivery deadline.

Since the OEM engineers at the destination required the items to be delivered to the client's site using a pre-advised sequence, Polaris' team coordinated a shipping plan in-line with the sequence to minimise delays for the shredder's instalment.

"We extend our sincere gratitude to all stake holders for their support and timely execution."

Digital Logistics

Conference & Exhibition 2023

100% VIRTUAL | OCT 11 - 12, 2023

Elevate your logistics game with the principles of adaptability, sustainability, and visibility.

450+ ATTENDEES	24+ SPEAKERS	250+ COMPANIES	35+ MEDIA PARTNERS	40+ COUNTRIES
--------------------------	------------------------	--------------------------	---------------------------------	-------------------------

Program Benefits

- Uncover the latest advances and innovations for the future of logistics.
- Expand your knowledge and learn about opportunities in digital logistics.
- Network with Business leaders, Government officials and peers from global organizations.

EVENT PARTNERS

A DEDICATED TEAM OF SPECIALISTS AT GO GAUGE PROJECTS

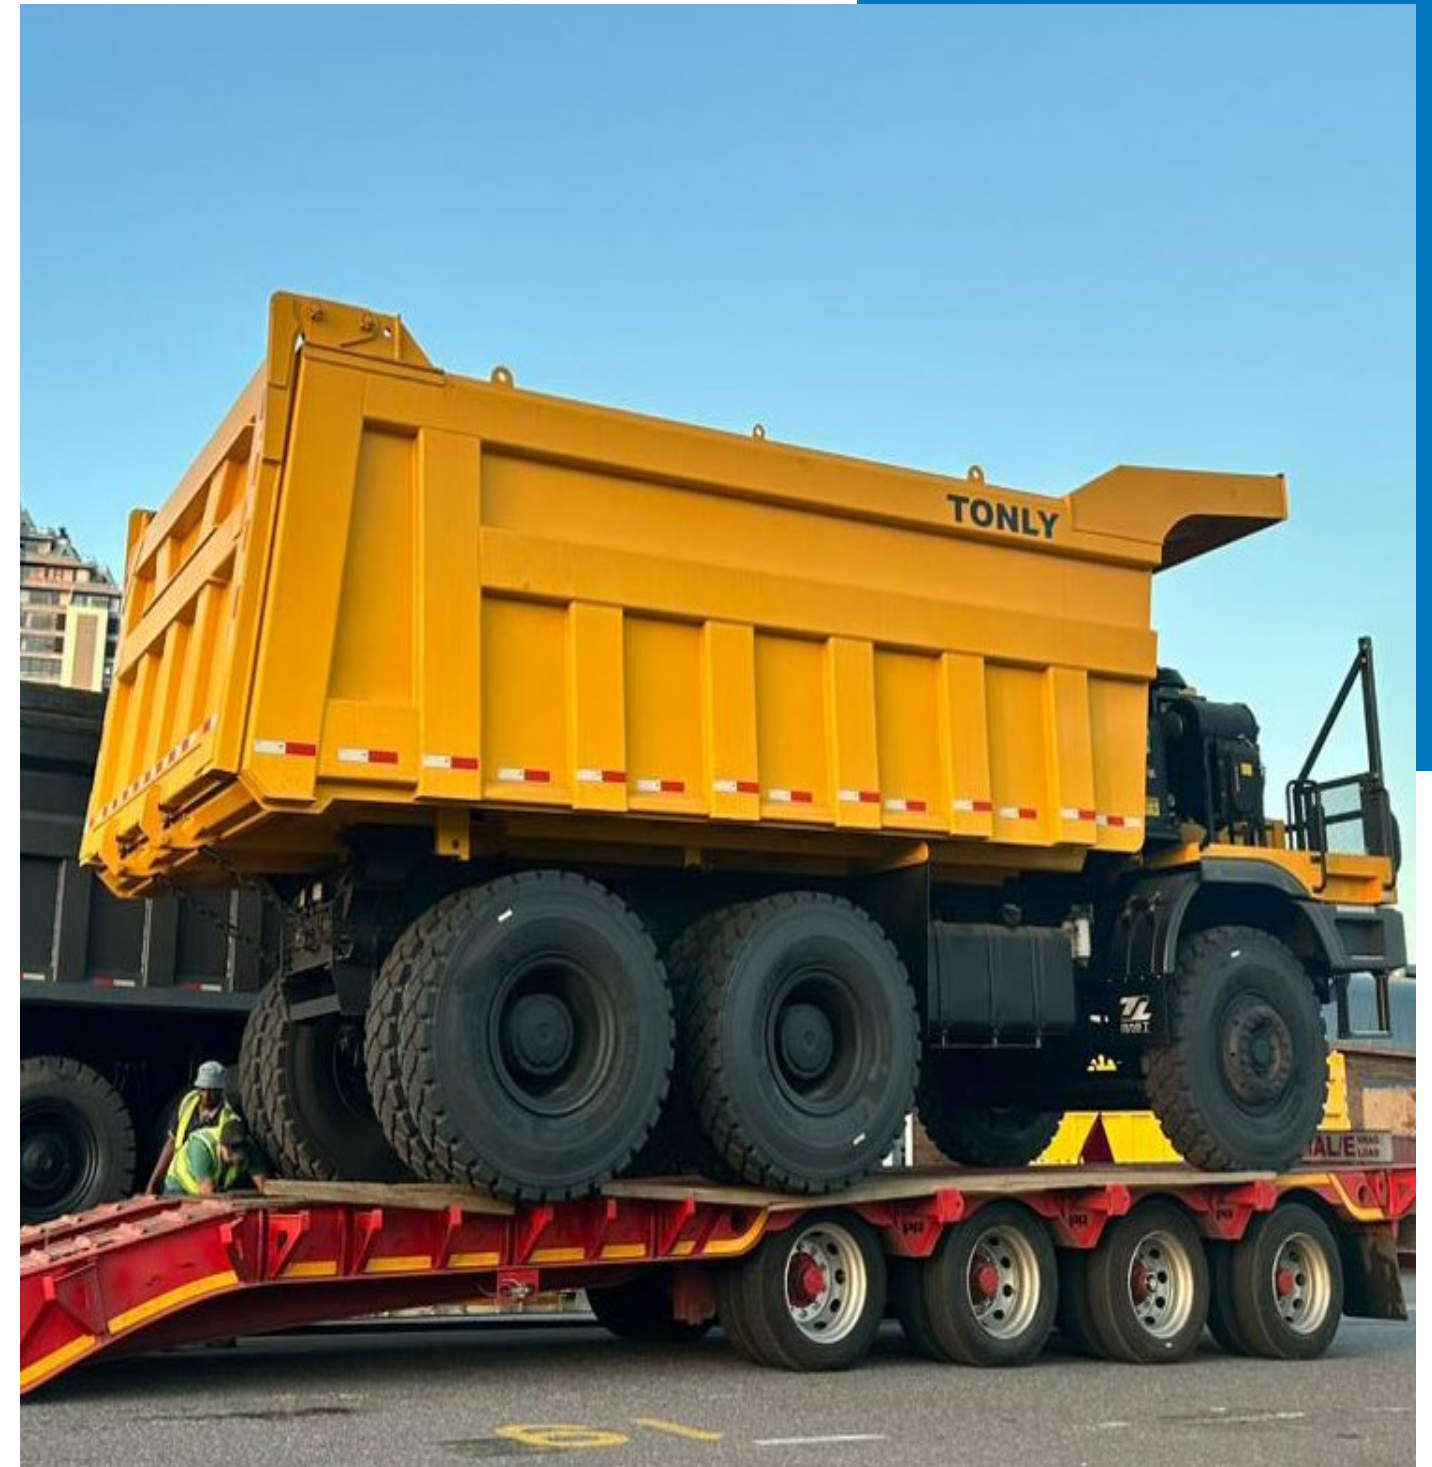

We are pleased to report **Go Gauge Projects** are new PCN members in **Singapore**. The company are complete experts in **turnkey project logistics solutions**.

"Go Gauge Projects is an international project logistics and transportation company covering various industries such as oil & gas, power & energy, steel, infrastructure & construction, automotive, rail, aerospace, ship building, fabrication, paper & pulp, heavy machinery & equipment, engineering and yachts.

We've learned that great service begins and ends with **experienced and friendly professionals**. Our dedicated team of specialists finish each project on schedule with the highest level of quality and a focus on personalised service, competitive rates and customer satisfaction. Any project - large or small - requires **careful planning, coordination and expertise**. By getting involved in the planning process as early as possible, Go Gauge Projects provides detailed, workable solutions and adds value to every project.

We provide **integrated logistics services** including project cargo management solutions, vessel chartering, OOG shipping, port handling, breakbulk, RORO, heavy haulage & lifting, factory decommissioning solutions, international freight management and customs clearance."

"Whatever the size, length, width, height or weight of the load - we can move it!"

NO LOAD IS TOO HEAVY OR LARGE FOR TRANSNETWORK AFRICAN FREIGHT

We are pleased to announce **Transnetwork African Freight** are new members in **South Africa**. Based in Durban, they are efficient and professional in project cargo handling & shipping and abnormal & heavy road freight.

"Transnetwork African Freight offers total logistical solutions, tailor-made to each project's specifications and needs. We aim to simplify our clients' freight transportation requirements."

*We are specialised and experienced in the international transportation of large, high-value & critical project cargo and the national and cross-border transportation of OOG, heavy and abnormal loads. We have all the expertise and equipment that allows us to reliably offer these services - **no load is too heavy or too large!**"*

ILS EGYPT DELIVER HIGH-EFFICIENCY LOGISTICS SOLUTIONS

We are pleased to introduce **International Logistics Solutions (ILS)** as new members in **Egypt**. Focused on oversized project cargo and heavy lift, their offices are located in Cairo, Alexandria, Port Said, Suez and Sheikh Zayed City. Chairman, Mr. Ahmed Youssef says; "The ILS team are ready and enthusiastic to offer our services to the network and we look forward to getting to know the active and powerful members."

"International Logistics Solutions deliver **reliable and hassle-free cargo** handling and logistics services with **expert local knowledge**."

"We have the capacity and experience to handle full scale project cargo and heavy lift shipments. Our comprehensive project logistics service plans are tailored to meet specific requirements ensuring quality solutions."

"Our team of professionals can foresee different kinds of challenges while handling over-dimensional and heavy cargo and design high-efficiency logistics solutions with safety and competitive pricing. We have also established good strategic relationships with the major shipping companies in the world."

The main service scope of ILS includes project cargo handling, oversized and heavy lift cargo, breakbulk & bulk movements, RO-RO, vessel chartering, surveys, inspections & studies, loading & unloading, lashing & fastening, inland trucking, air freight, hazardous & dangerous goods, customs clearance, warehousing and insurance.

Some recent work handled by ILS is shown in the gallery below.

OVER 40 YEARS OF TRANSPORT & LOGISTICS EXPERIENCE WITH MOLDTRANS

Moldtrans are new members in **Spain!** They come recommended as a reliable and trustworthy company by PCN members and hold ISO, AEO, ATEIA, FIATA and IATA certification. Founded in **1979**, they have a wide coverage of offices across Spain in Barcelona, Valencia, Madrid, Sevilla, Tenerife, Las Palmas, Lleida, Irun and Alicante.

The knowledgeable and helpful Moldtrans team are experts in project cargo handling, forwarding and transportation. Daniel Rodriguez (Overseas Manager) says they are looking forward to working with PCN members to generate mutual growth and business opportunities.

Daniel continues by introducing the company; "With **over 40 years experience** in international freight transport and logistics, Moldtrans is a one-stop multimodal partner occupying a prominent role in the Spanish logistics sector.

We offer detailed and quick responses with **efficient logistics solutions** for each complex project which requires specialisation, experience and know-how. Each shipment is executed **uniquely and personally** by our team of experienced professionals who analyse all available logistics options for the best solution fulfilling all the technical aspects required with competitive costs."

Moldtrans have a broad portfolio of specialised services including heavy lift and OOG cargo, breakbulk, RO-RO, railway logistics, cross-trades, contract logistics, liquid logistics and temperature-controlled transport.

"Moldtrans make it possible!"

Some recent projects handled by Moldtrans are photographed below including acid coolers and hydraulic press machines.

MEGAGON REPORT SHIPMENT OF FOUR LARGE MACHINES

Megagon Project Solutions are pleased to report a recent shipment of **four large machines**. The machines were transported from Europe to Turkiye with each measuring **12 x 3 x 4m** and weighing **27.5tn**.

Megagon Project Solutions are experts in oversized and heavy lift cargo transportation by land and sea as well as port operations, door-to-door services, chartering solutions, route surveys, project planning, feasibility studies, loading & unloading, load securing and engineering solutions.

COMPLEX TRANSPORTATION IS MADE EASY WITH CHEVALIER AOC

We are pleased to welcome **Chevalier AOC Freight Express** as new PCN members in **Hong Kong!**

Senior Business Development Manager at Chevalier AOC, **Kevin Koon** has also confirmed attendance at the **PCN 2023 Annual Summit** taking place in **Thailand on 12-14 November**. Meeting face-to-face and building closer relationships (and friendships) is a valuable tool which shouldn't be underestimated, and we are delighted to be welcoming Chevalier AOC at the event. Please **contact us** if you are interested in joining us in Thailand!

Kevin introduces the company; "Chevalier AOC is an **integrated logistics service provider**, offering solutions customised to the needs of different industries. We focus on delivering high-quality services that are simple and straightforward to work with."

"We understand that extraordinary cargo requires extraordinary solutions and we have the logistics capabilities and geographical knowledge to successfully and safely coordinate project cargo movements."

"Complex transportation solutions are made easy with Chevalier AOC!"

INFREIGHT OFFER EXPERIENCE & EXPERTISE FROM PLANNING TO EXECUTION

We are pleased to announce **Infreight Logistics** are new members in **Singapore**. The company offer a complete scope of project logistics services with in-depth knowledge, skills and experience in breakbulk and OOG shipping.

Sales Manager, Cheryl Tan presents the company; "At Infreight, we are committed to providing **innovative, efficient and tailor-made solutions** that challenge the status quo and result in reliable and trusted relationships. Our key strength lies in our professional, passionate and dedicated team, pioneered by a team of innovative, resourceful and open-minded industry experts.

Guided by our core value to **'deliver care and deliver excellence'**, we are committed to provide on-time, cost-effective and integrated logistics services for various industries.

Project logistics and special cargo is always challenging and requires professional skills and close attention throughout the whole operation. With our hands-on experience, Infreight's expert team works from end-to-end to ensure project cargo is shipped safely and smoothly.

Our freight station is fully licensed to operate special cargo and the facility is equipped with heavy-duty cranes, trucks and machines, enabling us to load, unload and move heavy and oversized cargo efficiently. Our packaging team is also experienced and well-trained in crating, lashing, tarping and securing, ensuring the safety, steadiness and balance of any transportation."

"Whether the cargo is out-of-gauge or extreme in weight, you can trust our experience and expertise from planning to execution."

Pictured below is a recent project handled by Infreight Logistics involving a chartered vessel for 2,000mt of steel pipes.
