Project Cargo Network cannot take responsibility for the opinions, statements and/or facts expressed in the stories, that are contained in this publication. Any views expressed are those of the individual quoted, and not necessarily those of the publisher. The publisher can accept no responsibility for any errors or omissions made, but will endeavour to amend any, that are brought to our attention, in a future issue.

Welcome to our monthly eMagazine, an official PCN publication which includes articles on Member's projects, the latest companies to join, reminders of membership tools and official updates.

Distributed to both our internal readership of 10,000+ staff worldwide and also accessible to the 5000+ visitors per month to our website. We also invite external companies to subscribe and currently over 500 industry executives engaged in energy, construction, shipping, and ancillary industries have asked to regularly receive a copy. Please feel free to **subscribe** and each issue will be delivered straight to your inbox.

To see the latest news, please see the **News section** of our website.

We are delighted by our continued strong growth - scan the QR code to see our impressive association which has a global reach of **over 120 countries**. However, we are more impressed with the amount of business and projects that our members collaborate on. It is why we exist!

Enjoy this issue.

Rachel Crawford FCILT  
PCN President/C.E.O.

The PCN Team  
From left: Tom, Judith, George,  
Rachel, Sam, Wendy

**Rachel is supported at the PCN Head Office by a strong group of talented individuals drawn from a variety of transport and media backgrounds, all of whom very much contribute to the success of our organisations.**

### MEMBER SUPPORT

Judith manages the network on a day-to-day basis, assisted by Wendy. Together they ensure that all systems are up-to-date and are the first stop for any Member queries. In addition, Wendy secures collaborations with the **world's top industry exhibitions**.

### RECRUITMENT

Sam manages membership recruitment, selecting companies who will become active Members. His current aim is to expand our global coverage filling our **vacant territories** and emerging markets.

### NEWS DESK

Tom runs our **News Desk**, publishing **online articles** and managing the **PCN Blog**, supported by Sam who manages the company's social media including **X** and **LinkedIn**.

### PUBLICATIONS

George is responsible for the production of our colourful **eMagazines** (packed with Members news!) and all brochures, marketing and sales material available to Members.

### EVENTS

Judith and Wendy organise and support Rachel at our **Network Meetings** from sourcing locations to managing the registration process.

## MGL CARGO SERVICES SHARE RECENT INTERNATIONAL SHIPMENTS

MGL Cargo Services are pleased to report on **two recent shipments** which travelled internationally, involving **large units of cargo**.

The first shipment originated from **Shanghai, China** and included the transport of sixteen SHACMAN trucks.

Delivered to **Toamasina Port in Madagascar**, MGL Cargo Services covered vessel chartering, loading (including lashing & welding), as well as discharging.

1. SHACMAN F3000 6x4 Dump Truck (x13)
2. SHACMAN F3000 6x4 Sprinkler Truck (x2)
3. SHACMAN F3000 4x2 Oil Tanker Truck (x1)

The company's second shipment concerned the transit of an **overhead crane girder**, which measured **18.5 meters long** with a weight of **five tons**.

Originating from **Alexandria in Egypt**, MGL Cargo Services oversaw the successful transport to **Skikda, Algeria** by arranging pre-carriage, customs clearance, lashing, and documentation.

"This seemed a simple shipment, but after our client faced difficulties with the initial loading, we elected to solve their issues by loading it as breakbulk."

# GO GAUGE PROJECTS SHIP TRANSFORMERS FROM INDIA TO NIGERIA

Go Gauge Projects, our members from **Singapore**, are glad to share an exciting logistics update involving a **large transport of transformers**.

Travelling from **India to Nigeria**, this operation included **over 200 packages** and a cargo volume of approximately **2,000 CBM!**

"We extend our gratitude to our dedicated team for their outstanding efforts in executing this complex project."

*Go Gauge Projects is an international project logistics and transportation company covering various industries such as oil & gas, power & energy, steel, infrastructure & construction, automotive, rail, aerospace, ship building, fabrication, paper & pulp, heavy machinery & equipment, engineering and yachts.*

**GO GAUGE**  
LOGISTICS

# EXG DELIVERS COLD BOXES WITH PRECISION & EXPERTISE

Express Global Logistics are pleased to report on the seamless transport of **oversized cold boxes** for their client.

The consignment included **two cold boxes** with dimensions of **62.7 (L) x 6.56 (W) x 6.60 (H) meters**, with a weight of **232.5 metric tons** each.

Additionally, EXG transported one heat exchanger, alongside other key cargo components.

For this journey, the company utilised various advanced equipment:

- **Hydraulic Axles:** A configuration of 28 axles were employed to distribute the weight of the cargo evenly and ensure stable transportation.
- **SPMTs:** 24 axles were used to maneuver the cargo efficiently through the route's various challenges.

The route covered a significant distance from **Hazira Port** to the designated site, requiring meticulous coordination and preparation.

"During this project, our team undertook essential civil work to guarantee the safe and smooth passage of these oversized packages."

EXG preemptively addressed **road conditions** by filling potholes, ensuring a smooth and **damage-free transit** for the heavy cargo.

To accommodate the **dimensions of the cargo**, they worked with local authorities to **temporarily dismantle** electrical wiring, camera poles, and navigation boards, safeguarding both the infrastructure and the cargo.

The team promptly **reinstalled all dismantled elements** after the cargo had passed, minimising disruptions to the local area.

"At EXG, we pride ourselves on delivering tailored, comprehensive solutions to meet the unique demands of every project."

# EXPERTS IN PROJECT & INDUSTRIAL LOGISTICS - NOATUM PROJECT CARGO

We are pleased to announce **Noatum Project Cargo** are new members in the **USA**. The established company will be well-known to the PCN family with their **Spain** and **Turkiye** offices being long-term and valued members. They are experts in project and industrial logistics.

Noatum Project Cargo **have proven expertise and experience** (*heaviest unit handled in the USA - 420mtn*) in a complete range of solutions including chartering (*40,000+frt per year*), barging, rail, heavy haulage, rigging, lashing, surveys & studies, project management, permits and installations.

**Pablo Conde**, USA VP at Noatum Project Cargo attended the **PCN 2024 Annual Summit** which took place in **Cyprus (6-8 October)**.

Pablo comments; "Noatum Project Cargo is the project cargo specialized division of Noatum

Logistics, a leading company in supply chain management. At Noatum Project Cargo, we provide **highly specialized logistics solutions for industrial clients**. Our activity includes sectors such as offshore wind, oil & gas, power, renewable energy, mining, rail stock, port equipment, marine, automotive, construction as well as any other sort of industrial cargo."

"Thanks to our balanced team of talented and skilled experts in project cargo logistics, we are able to undertake the most challenging projects, even in remote areas. Our in-house engineering team is capable of conceiving state of the art solutions adapted to any complex and large scale projects."

**Click here** to download an introduction from Noatum Project Cargo featuring some of their recent project highlights.

# 25 YEARS OF PROJECT CARGO KNOW-HOW AT KOREA TOTAL LOGISTICS

We are pleased to introduce **Korea Total Logistics** as new PCN members. The company started business in 2000 and their head office is located in Seoul with branch offices at Incheon Airport, Busan, Gumi and Daegu. They come recommended by current members as reliable and cooperative with excellent local knowledge and contacts.

Their customised project cargo handling solutions include project management, breakbulk & OOG shipping, heavy & large cargo transport by road, air chartering for bulky & urgent cargo, barge shipping, loading & unloading as well as various added logistics services.

Director, **Nancy Jang** comments; "The Korea Total Logistics team has many years of know-how in efficient multimodal project logistics and heavy cargo transportation. We create specialized solutions quickly, accurately, safely and competitively according to each project's specific needs. Our experience has included global EPC projects, relocations of factory & production facilities, steel industry projects, cranes and many other heavy cargo and large machinery."

**"Korea Total Logistics - A foundation of trust built over 25 years."**

A recent power plant project from Korea Total Logistics is photographed which involved **26,000mt** of cargo shipped from Bremerhaven in Germany to Busan and Masan. Please also click [here](#) to download a presentation of recent work handled by the company.

# 3P LOGISTICS DELIVERS EXCELLENCE ON RECENT INDUSTRIAL PROJECTS

3p Logistics are glad to report on a project shipment they recently completed from the Netherlands to the United Arab Emirates via Belgium.

The cargo for this project involved a **gangway/telescopic access bridge** for the offshore industry, measuring **14.5 (H) x 2.74 (W) x 3.36 (H) meters** with an impressive weight of **19,000 kilograms**.

3p Logistics covered a wide scope of work, including:

- Transport from pick-up in the **Netherlands to Antwerp** by lowbed semi-trailer
- All **handlings & port operations** in Antwerp
- **Documentation & customs**
- Loading onto mafi trailer, **stuffing, securing & covering** of cargo for **sea transport to UAE**
- RO/RO to the **Port of Jebel Ali**

Global Project Manager at 3p Logistics, **Ilya Goncharov**, offered his comments below.

"Telescopic access bridges allow for safe and easy transfer of personnel and cargo to & from offshore structures. It is suitable for a variety of vessels and operational situations."

*As Global Project Manager at 3p Logistics Industrial Projects, Mr. Goncharov is responsible for many such shipments worldwide, and for this oversized cargo from the Netherlands to the UAE.*

## AN EFFICIENT & EXPERIENCED TEAM AT INTO AFRICA PROJECT LOGISTICS

We are pleased to welcome **Into Africa Project Logistics** as new members in **South Africa**. The experienced company are SAFF registered and come recommended by PCN members as reliable and efficient. They are experts in **integrated project logistics** and handling OOG and special cargo.

**Michelle Stuart** (General Manager) says; "Our mission at Into Africa Project Logistics is simple - to provide high-quality services in a timely manner. Our team caters to each project's specific needs to ensure excellence, paying particular attention to working efficiently while keeping the lines of communication clear and concise.

Whether it be road, sea, rail, air or multimodal and regardless of how big or heavy, our in-house team of **dedicated and experienced professionals** are able to assist. We also offer project management, route surveys, packing & loading, warehousing and many other added services."

Please **click here** to view some recent projects from Into Africa Project Logistics.

# CEEKAY SHIPPING SERVICES ARE SIMPLIFYING OOG MOVEMENTS

**Ceekay Shipping Services** are new members in the **UAE!** They are specialised in project cargo and OOG movements. The company are also trusted PCN members in **Malaysia**.

“Ceekay Shipping started operations in **2003** and today is a well-recognized name in the project cargo industry. We are specialists at catering to the requirements of the oil & gas, power, energy, marine, construction, manufacturing and heavy equipment sectors.

“With over 20 years of experience, we offer **innovative project cargo handling solutions** as well as technical engineering expertise and complete project management services. As our company represents various global breakbulk and RORO carriers, we have a definite advantage in sourcing the most competitive pricing in the market.

Our team of experts focus on the safe and reliable delivery of complex and OOG cargo by eliminating potential shipping risks and reducing freight costs by effective project planning.”

**“Ceekay Shipping Services - simplifying OOG movements and transforming challenges into solutions.”**

Ceekay Shipping Services were recently involved in the end-to-end multimodal logistics for the movement of a geo-thermal rig and its accessories to the Philippines. The cargo totalled **144** pieces of various sizes and shapes at **7,000cbm** carried on **85** trucks. The project was meticulously planned and executed with pinpoint precision so that all the set timelines were met leading to a happy and satisfied client.

The rig was crated and seaworthy packed by the Ceekay inhouse rig packing team who relocated to Oman for the project for a period of 25 days. The rig packing list creation and packaging was done in the presence of the shipper appointed Marine Warranty Surveyors.

The shipment was executed with 85 trucks loaded at Nizwa and Muscat and moved to a intermediate storage yard in the Sohar Port area to counter the shortage of storage space in the shippers yard. Once the paperwork, documentation and customs clearance was completed, the full lot was moved from the storage yard to Sohar Port with no issues thanks to the supervision and expertise of the Ceekay team. It was then loaded to the chartered heavy lift vessel for shipping to the Philippines.

## LOGISTICS PLANNING

**Route Planning:** Determined the most efficient route from Nizwa and Muscat to Sohar considering factors like road conditions, traffic, and distance.

**Vehicle Arrangement:** Arranged the appropriate number and type of vehicles needed for transporting the rig and ensured that all vehicles are in good condition and comply with transportation regulations.

**Loading & Securing Rig:** Developed a plan for loading the rig onto the transport vehicles safely and securely. Proper equipment and techniques were used to ensure the rig was not damaged during transit.

**Documentation:** Prepared all necessary documentation such as transport permits, customs clearance documents, and delivery schedules.

**Route Monitoring:** Monitored the progress of the transportation in real-time to address any issues or delays promptly, using GPS tracking and communication tools to stay updated.

**Safety Measures:** Implemented safety measures for both the transportation crew and the rig to prevent accidents or damage.

**Customs Clearance:** Coordinated with customs authorities to ensure the smooth clearance of the rig at

the destination port.

**Delivery & Unloading:** Planned for the delivery and unloading of the rig at the designated location in Sohar.

**Post-Transportation Inspection:** Conducted inspections after transportation to ensure that the rig had been delivered in good condition and to address any discrepancies if found.

## KEY ACHIEVEMENTS

**Efficient Logistics Planning:** Meticulous planning and coordination were instrumental in optimizing transportation routes, selecting suitable modes of transport and ensuring the timely delivery of the cargo.

**Strategic Partnerships:** Collaborating with reliable partners facilitated smooth operations and minimized potential disruptions.

**Customs Compliance:** Adhering to customs regulations and documentation requirements in both Oman and the Philippines ensured smooth clearance processes and avoided delays.

**Risk Management:** Implementing robust risk management strategies, such as insurance coverage and contingency plans, mitigated potential risks and uncertainties along the shipment route.

**Timely Execution:** Despite challenges, the project was completed within the scheduled timeframe, demonstrating effective project management and execution capabilities.

**On-Time Delivery:** Despite challenges, the project was completed within the scheduled timeframe, showcasing effective project management and coordination.

**Safety Compliance:** Strict adherence to safety standards ensured a safe working environment throughout the project, with zero major incidents or accidents.

**Client Satisfaction:** The successful completion of the project led to high client satisfaction, reflecting the team’s dedication and professionalism.

**Logistical Constraints:** Managing logistics for equipment transportation, workforce deployment and supply chain coordination posed logistical challenges, which were effectively addressed through meticulous planning.

**Regulatory Compliance:** Adhering to regulatory requirements, including safety standards, environmental regulations and industry best practices, required continuous monitoring and adaptation.

### CHALLENGES FACED

**Transportation Complexity:** Coordinating multimodal transportation, including land transport to the port, ocean shipping, and airfreight for time-sensitive components, presented logistical challenges that required careful planning and execution.

**Customs & Regulatory Hurdles:** Navigating customs procedures, import and export regulations and documentation requirements in multiple jurisdictions demanded thorough understanding and compliance to avoid delays or penalties.

**Weather & External Factors:** Adverse weather conditions, geopolitical factors and unexpected events posed operational challenges that required adaptability and contingency planning to ensure uninterrupted shipment progress.

### CONCLUSIONS

**Effective Communication:** Clear and timely communication among all stakeholders, including suppliers, carriers, customs authorities, and project

teams, was essential for smooth coordination and problem-solving.

**Risk Mitigation Strategies:** Developing comprehensive risk management plans and contingencies helped mitigate potential disruptions and ensure continuity of operations.

**Continuous Improvement:** Regular evaluation, feedback collection and process optimization contributed to refining logistics practices and enhancing efficiency for future projects.

**Team Collaboration:** Effective collaboration among multidisciplinary teams was crucial for success, emphasizing the importance of communication and teamwork.

**Adaptability:** Flexibility and adaptability in response to changing project requirements and external factors were key to overcoming challenges and meeting project goals.

The successful completion of this multimodal rig shipment project underscores the importance of strategic planning, collaboration, and adaptability in complex logistics operations. It reflects a commitment to excellence, customer satisfaction, and continuous improvement in the field of transportation and logistics.

# UPCARGO TRANSPORT TUG BOAT BRIDGE CABIN SAFELY & EFFICIENTLY

UPCARGO Logistics, our members from Panama, are glad to share the recent completion of a project involving the **bridge cabin of a tugboat**.

### Port Reception: The First Step in the Value Chain

The logistics process began locally at the **Port of Cristóbal**, where UPCARGO's highly-skilled team managed the receipt of the cargo.

An **inspection of the area** was conducted to ensure that the space was suitable, and the **port crane was prepared** with the appropriate capacity for cargo mobilisation.

Additionally, a **safety plan was established** to protect both workers and the cargo, a crucial step to avoid potential damage and ensure a smooth process.

### Discharging from 40' FR and Loading on Low-Bed Trailer

The discharge of the tugboat bridge cabin was carried out with utmost precision, **minimising risks** and **ensuring the integrity of the cargo**.

### Ground Transport on Special Equipment

The loading was performed on a **low-bed trailer** in

a secure and efficient manner to minimise vibrations during transport.

### Escort and Route Study: Ensuring Safety and Efficiency

UPCARGO conducted a **thorough route study** to identify potential obstacles and plan solutions to minimise risks.

They also provided **escort services** to ensure that the cargo reached its destination without incidents, complying with all current regulations and standards.

### Commitment to Logistical Excellence

With a focus on **quality, safety, and efficiency**, UPCARGO are committed to being the **ideal partner** for those needing to transport large-scale cargo.

Through a carefully planned and executed process, they ensure the success of each project, from **port reception to final delivery**.

"At **UPCARGO Logistics**, our mission is to provide a **comprehensive logistics service** that meets the demands of today's market."

# PCN 2024 ANNUAL SUMMIT IN CYPRUS - A WONDERFUL SUCCESS!

We're excited to share that our **13th Annual Summit** took place from 6-8 October 2024, at the beautiful Azia Resort & Spa in Paphos, Cyprus! See **Group Photo**.

The gathering provided our Members with a fantastic opportunity to save time and reduce travel costs by **bringing everyone together for P2P meetings** in one convenient location.

Cyprus was the perfect backdrop for our international event, sitting at the crossroads of Europe, Asia, and Africa, where ancient history meets modern culture. Paphos, the historic capital of ancient Cyprus and a UNESCO World Heritage site, is renowned for its breathtaking natural beauty.

Before the event kicked off, **our guests had the chance to enjoy a jeep tour**, exploring some of Cyprus's hidden gems. They ventured through the stunning Akamas nature reserve and visited the famous Turtle hatchery at Lara Bay, along with charming villages and a picturesque gorge featuring incredible geological formations.

Later that day, everyone gathered to pick up their name badges and enjoy a delightful dinner on the beautiful Akamas Terrace. **See photos.**

The official event kicked off with **personalised 1-2-1 meetings using our custom software**. Since the system is 'live', delegates could easily schedule new meetings on the spot if something changed, making the most of their time and ensuring they connected with as many companies as possible. **See photos.**

We also held our Annual Awards! The PCN Head Office empowered its members by giving them the opportunity to nominate their peers across six categories. This initiative allowed members to **spotlight the most exceptional companies and individuals within PCN**. **See photos.**

After lunch, we waved goodbye to the meeting room and embraced the sunny Cyprus weather with a **fantastic team-building session** on the hotel lawn!

The fun-filled activity was all about strengthening our connections through games and challenges designed to encourage teamwork, problem-solving, and strategic thinking. It wasn't just about winning (though some teams certainly brought their A-game!), it was about the **camaraderie and shared memories that we created together** as one big global family. **See photos.**

In the evening, we reunited for a Cyprus-themed celebration, complete with delicious food and dancers. **See photos.**

The next day was packed with more engaging 1-2-1 meetings. These sessions are a great chance for members to **share insights and discuss both current and upcoming projects** in the manufacturing, oil and gas, infrastructure, construction, power, and energy sectors.

PCN would like to take this opportunity to thank our sponsors during the event:

- **Integral Chile** who sponsored our Racing Game.
- **NVOXPRESS** who sponsored our 360 Booth.
- **Fortune International, MGL Cargo, Ubemoz Logistics and CargoWise** - who kept us going by sponsoring our Coffee Breaks!

The winners that received the most nominations in each category and were awarded trophies were:

**2024 Regional Award: Middle East & Africa**  
Khimji Ramdas Projects

**2024 Regional Award: The Americas**  
Thunderbolt Global Logistics

**2024 Regional Award: Asia & Pacific**  
Megalift Sdn Bhd

**2024 Regional Award: Europe**  
Hacklin Logistics

**2024 Team Member of the Year**  
Renaud Stiers of ABL NV (accepted by Elke De Backer)

**2024 International Member of the Year**  
WRL Shipping

[See all our photo albums!](#)

**Next Virtual Event: 7-11 April 2025**

Every year, the PCN team allocates a series of consecutive days where all Members are invited to participate in virtual meetings (at no extra charge). Members can set their local time zone and then instantly view the agenda so that they can make themselves available or unavailable in the dedicated meeting slots. The next Virtual Meeting event is from 7th-11th April 2025 - the perfect opportunity to follow-up on our face-to-face meetings! See our **Meeting Hub** to register.

# OOG & INDUSTRIAL SERVICES ARE SIMPLIFIED WITH NUERA LOGISTICS

We are pleased to approve **NUERA Logistics** as new members in **Canada**. The company are specialists in oversized and heavy project cargo. Their Head Office is located in Cambridge, Ontario with branches in Mississauga and Calgary.

Director of Special Projects, **Basel Soujah** says; "Founded in 2008 as a family business, NUERA Logistics offer tailor-made solutions and each project benefits from the **collective knowledge of our experienced and enthusiastic team**. We are experts in industrial, out-of-gauge and project cargo requirements. Our mantra is: **'if you can build it, we can ship it!'**"

"Performing with high standards of integrity, accountability, and quality, we handle all types of cargo which can be part of a project, from small shipments and containers, to very large and very heavy complex units, applying all modes of transportation - ship, truck, rail or air."

**"Experience the NUERA advantage!"**

The gallery **here** shows some recent projects handled by NUERA Logistics.

# 3P LOGISTICS TRANSPORT WIND TURBINE PARTS TO AUSTRALIA

3p Logistics are pleased to report the successful delivery of wind turbines parts from **Germany and Lithuania** to **Australia**.

The turbine parts consisted of about **300 metric tons** in **towers** and **foundation rings**.

This cargo was collected from the **Port of Rostock** in Germany before being transported by a coaster vessel to the **Port of Klaipeda, Lithuania**.

3p Logistics were responsible for operations such as loading & unloading, lashing & unlashing, customs clearance, and port handling.

Once arrived in Lithuania, the turbine parts were loaded onto an **ocean vessel** and **delivered safely & securely** to the final destination in Australia.

**Ilya Goncharov, Global Project Manager** at 3p Logistics offered his comments on the project:

*"The market of wind turbines is a great place for small and mid-sized forwarders. You need to act fast and deliver upon unique solutions. Sometimes, you must get offers from more than 15 suppliers to find 1 solution, even for a small episode of the project."*

# INTELLIGENT, RELIABLE & FLEXIBLE SOLUTIONS FROM DELAMODE

We are pleased to report **Delamode** are new members in **Lithuania, Latvia and Estonia!**

The company holds accreditations from many associations including ISO, AEO, RHA and FIATA. They offer a complete range of industrial project services including oversized & heavy cargo transportation by road, ocean, river, rail, air and multimodal, chartering, surveys & studies, consolidation, packing & containerisation, customs and warehousing.

**Domantas Deringis** (Oversized Transportation Manager) says they are looking forward to offering their specialist services to the network and creating new and lasting partnerships with PCN members.

*"Delamode is one of the largest growing international freight companies in the Baltic States. Our success lies in the collective ability and passion of our team*

*and our commitment to deliver and manage transport solutions efficiently, safely, securely and on time.*

*Serving a wide range of customers with intelligent, reliable and flexible solutions, no project is too big, too small, or too challenging for us.*

*Our vastly experienced team provides comprehensive expertise in international industrial project transport services. We offer integral, end-to-end support and deliver tailored road, ocean, river, rail and air logistics solutions for a variety of oversized and heavy cargo."*

**"Delamode connect the Baltics with the rest of the world through forward thinking transport & logistics solutions."**

Pictured is a recent project from Delamode delivering crane beams with dimensions of 25.80 x 2.55 x 2.90m each.

【Conference News】  
The 13th PCN Annual Summit recently took place from 6-8 October in beautiful Paphos, Cyprus!!!

EZLink team really enjoy the trip with those reliable old friends!!

The excitement is always high as we continue to build connections, expand our network, and embrace growth opportunities.

Our team at **Project Cargo Network** Conference in Cyprus.
