Any views expressed are those of the individual quoted, and not necessarily those of the publisher. The publisher can accept no responsibility for any errors or omissions made, but will endeavour to amend any, that are brought to our attention, in a future issue.

Welcome to our monthly eMagazine, an official PCN publication which includes articles on Member's projects, the latest companies to join, reminders of membership tools and official updates.

Distributed to both our internal readership of 10,000+ staff worldwide and also accessible to the 5000+ visitors per month to our website. We also invite external companies to subscribe and currently over 500 industry executives engaged in energy, construction, shipping, and ancillary industries have asked to regularly receive a copy. Please feel free to **subscribe** and each issue will be delivered straight to your inbox.

To see the latest news, please see the **News section** of our website.

We are delighted by our continued strong growth - scan the QR code to see our impressive association which has a global reach of **over 110 countries**. However, we are more impressed with the amount of business and projects that our members collaborate on. It is why we exist!

Head to page 24 for details on our exciting 15th Anniversary Celebration & Conference in London!

Enjoy this issue.

Rachel Crawford FCILT
PCN President/C.E.O.

The PCN Team
From left: Tom, Judith, George,
Rachel, Sam, Wendy

Rachel is supported at the PCN Head Office by a strong group of talented individuals drawn from a variety of transport and media backgrounds, all of whom very much contribute to the success of our organisations.

MEMBER SUPPORT

Judith manages the network on a day-to-day basis, assisted by Wendy. Together they ensure that all systems are up-to-date and are the first stop for any Member queries. In addition, Wendy secures collaborations with the **world's top industry exhibitions**.

RECRUITMENT

Sam manages membership recruitment, selecting companies who will become active Members. His current aim is to expand our global coverage filling our **vacant territories** and emerging markets.

NEWS DESK

Tom runs our **News Desk**, publishing **online articles** and managing the **PCN Blog**, supported by Sam who manages the company's social media including **X** and **LinkedIn**.

PUBLICATIONS

George is responsible for the production of our colourful **eMagazines** (packed with Members news!) and all brochures, marketing and sales material available to Members.

EVENTS

Judith and Wendy organise and support Rachel at our **Network Meetings** from sourcing locations to managing the registration process.

CSS KINGSTON COMBINE LOCAL EXPERTISE WITH GLOBAL KNOWLEDGE

We are pleased to announce **CSS Kingston Logistics** as new members in the **UAE**. The ISO certified company are industrial project experts covering a wide scope of sectors including oil & gas, power & energy, construction, marine, EPC, manufacturing as well as any other heavy machinery and equipment. Their sister company (Consolidated Shipping Services) are also valued members in **Saudi Arabia**.

Manager, **Robin James** states; "CSS Kingston Logistics has established itself as a trusted player in the project logistics and supply chain industry. Combining state-of-the-art facilities with a commitment to operational excellence, we are based in the Sharjah Airport International Free Zone (SAIF Zone) with additional offices in Dubai, Hamriyah Free Zone and Ras Al Khaimah.

Our comprehensive range of services cater to the diverse needs of our clients including project logistics, ocean & air freight management, land transportation management, multimodal transport, industrial packing, lashing & crafting, customs clearance, warehousing & storage, and a wide array of other logistics solutions. Our company's infrastructure has an impressive 120,000sqft of warehousing space and 87,000sqft of open yard storage.

With a stellar track record of critical projects, we go the extra mile to give **dependable services** and design and implement **optimal, tailor-made solutions**."

*"Providing **end-to-end solutions** in project management across various verticals, our team of*

*logistics experts at CSS Kingston carefully deliver **precise planning** for all types of projects, combining local expertise with global knowledge."*

A recent project handled by CSS Kingston Logistics involved the loading of an over-dimensional tank and accessories (**445cbm**) from India to the UAE. Their comprehensive approach encompassed meticulous groundwork, starting from the seamless pick-up at the factory, transportation to Nhava Sheva port, vessel arrangements to the Persian Gulf, and final delivery to the project site.

The strategic planning done by the project team allowed them to execute the last-minute details flawlessly and address all potential risks, ensuring the safe loading and timely delivery of the units.

Another recent project involved the successful loadout of a crane king, main boom and knuckle (**935cbm**) from Jebel Ali to Brazil. CSS Kingston Logistics covered a full range of services with comprehensive turnkey solutions including suitable carrier & vessel selection, packaging to meet vessel requirements and heavy haulage with escorts.

The most critical aspect of the operations was the strict deadline set by the client but the CSS Kingston project experts proudly found the most suitable solution and addressed all potential risks throughout the project. Their dedication to accuracy, attention to detail, and fantastic teamwork ensured that the project was completed successfully.

GO GAUGE PROJECTS MOVE HEAVY CARGO FROM CHINA TO INDIA

Go Gauge Logistics are pleased to update us with one of their recent successful **breakbulk** shipments involving a transport from **China to India**.

The project involved three units of cargo weighing a total **800 FRT**, which was smoothly transported from **Shanghai, China**, to **Ennore, India**.

This project required **detailed planning**, from efficient cargo handling at the port of origin to ensuring **on-time delivery** at the final destination.

"Every step was executed by our team with a strong focus on safety and precision, adhering to international best practices for project cargo logistics."

Go Gauge Logistics provide integrated logistics services including project cargo management solutions, vessel chartering, OOG shipping, port handling, breakbulk, RORO, heavy haulage & lifting, factory decommissioning solutions, international freight management and customs clearance.

RAMPS LOGISTICS SUPPORT GEOHIDRA AT DRAGON FIELD DEVELOPMENT

Ramps Logistics is thrilled to support Geohidra on the first on-site work for the long-anticipated Dragon Field development.

The project involves acquiring **geotechnical data** and high-resolution **2D seismic data**, essential for designing subsea infrastructure and determining the pipeline route from Dragon to Shell's **Hibiscus platform**.

The project launch was marked by a tour of Geohidra's vessel, **Dona Jose II**, and Ramps Logistics' Shorebase in **Chaguaramas** on Friday, October 11th.

Distinguished attendees included the Prime Minister, Dr. the Honourable Keith Rowley, the Minister of Energy and Energy Industries, the Honourable Stuart Young S.C., as well as representatives from Shell, the National Gas Company of Trinidad and Tobago Limited, and primary project contractors.

The **Dragon Field** development achieved a significant milestone by securing the **OFAC license** in May 2023.

This **crucial permit**, granted through skilled diplomacy amid complex international sanctions, has accelerated actions over the past year, transforming Dragon Field from a licensed concept into a **dynamic development site**.

"We extend commendations to Minister Stuart Young and the team at the Ministry of Energy and Energy Industries, Shell, and NGC for their exceptional efforts, which not only advance the Dragon Field project but also strengthen T&T's economic outlook."

3PL SUCCESSFULLY DELIVER OVERSIZED CARGO FOR VESTAS IN DENMARK

3P Logistics (3PL) successfully began the transportation of oversized wind turbine components for Vestas in Denmark.

In January 2025, 3PL Industrial Projects secured a long-term contract to transport **wind turbine parts** - measuring approximately six meters in width - from **Vietnam** to Vestas' facility in **Lindø Munkebo, Denmark**.

This complex operation involves multiple logistical challenges, including road transportation from **Aarhus port**, covering a distance of **170 kilometers**, exclusively during nighttime hours.

Due to the width of the cargo, each truck required an **escort of three pilot cars**, in compliance with Danish transportation regulations.

This operation is set to continue, with additional shipments scheduled to arrive in the **spring of 2025**.

Ilya Goncharov, Head of Industrial Projects at 3PL, is responsible for overseeing this critical transportation project. Reflecting on the success of the initial deliveries, Goncharov emphasised the importance of **precision planning** and **execution** in handling oversized cargo:

"Coordinating international imports, road transportation, and regulatory compliance requires seamless teamwork, and I'm proud of our team's dedication to delivering excellence for Vestas."

FOUNDER COMPLETE HEAVY BREAKBULK SERVICE FROM CHINA TO JAPAN

Founder Air and Sea Cargo are glad to share a recent service they completed involving a large volume of breakbulk from China to Japan.

The shipment comprised of four units weighing **113 tons** with a total freight volume of **204 cbm**.

The company transported this hefty cargo from **Shanghai, China** to **Mojiko Port, Japan**.

Founder had good rapport with the shipowner, demonstrating **meticulous attention** to booking space, lashing, and discharge at Mojiko Port.

Two of the transported units were **overweight** and demanded a floating crane to unstuff the shipment.

Founder implemented **seamless procedures** with consideration of the weather conditions and water level at the port of loading.

ATLAS DELIVER HEAVY LIFT CARGO FOR SHAGAYA RENEWAL ENERGY PARK

ATLAS (Alghanim Freight) are pleased to report on a project they recently completed, involving a delivery for the construction of the **Shagaya Renewal Energy Park** in **Kuwait**.

Imported from **Spain** to **Shuwaikh Port** in Kuwait, ATLAS covered customs clearance before in-bound handling and transport of the cargo.

These eight units required precise handling, weighing **over 100 tons** per truck, and travelled a distance of **117 kilometres** from port to project site.

Specialised equipment was utilised for this shipment, including **heavy-duty trucks, cranes** and **safety escort vehicles** for night movements.

The cargo will be used for the commissioning of **gas combustion chambers** at Shagaya Renewal Energy Park.

ATLAS can meet any commercial shipping and logistics requirements – no project is too big. Our project team is here to help plan and facilitate any logistics and transport projects, from start to finish. We have the experience and capabilities to provide the best solutions.

SPECIALISED EXPERTISE & EQUIPMENT AT EFE PROJECT

We are pleased to welcome **EFE Project** as new members in **Turkiye**. The company started business 30 years ago and are ISO and OHSAS certified. They are specialists in project cargo transportation with offices in Ankara, Mersin, Istanbul, Izmir and Manisa.

Mr. Birol Yilmaz (Project and Business Development Manager) says they are looking forward to becoming an important member of the network.

"The starting point of EFE Logistics Group was 1995 and we offer integrated services in project cargo transportation, road freight, rail freight, sea freight, air freight, multimodal transport, chartering, port operations, storage, engineering, road & feasibility studies, and customs clearance."

*"We are focused on heavy freight and project cargo transportation in the construction, energy and mining sectors amongst others. With a **fleet of our own equipment**, the carrying capacity of our lowbed vehicles is **between 100 and 1000 tons.**"*

"EFE Project have the necessary expertise and equipment to safely transport heavy and oversized cargo efficiently!"

Please [click here](#) for the EFE Project gallery.

FLEET LINE SHIPPING SERVICES COMPLETE MASSIVE MODULE MOVEMENT

Fleet Line Shipping Services are glad to share a massive movement they recently finalised involving **large modules** from the **United Arab Emirates**.

Four modules were received from the fabricator yard at **Hamriyah Port**, measuring up to **37.0 (L) x 15.5 (W) x 8.00 (H) metres** with weights of up to **450 MT** each.

The cargo was transported using **104 axle SPMTs**, and several temporary civil work modifications were completed, including the temporary removal of electric posts & sign boards.

Fleet Line Shipping Services eventually loaded the modules as **RO/RO** on a deck carrier.

Fleet Line Shipping Services are recommended by PCN members as a valuable project forwarder and reliable experts in complex project logistics. The company are certified with ISO, OHSAS, HSE, NAFL, FIATA and IATA.

GO GAUGE PROJECTS TRANSPORT BREAKBULK TO INDONESIA

Go Gauge Projects are happy to update us on one of their recent successful breakbulk shipments, involving a transport from **India** to **Indonesia**.

Another successful project execution!

The company efficiently managed a shipment featuring **2000 cbm** of project cargo, comprising **16 packages**.

Go Gauge Projects ensured **seamless travel** by ocean freight and last-mile delivery in Indonesia.

With more shipments in the pipeline, Go Gauge Projects remain committed to **delivering excellence** in project logistics!

Go Gauge Logistics provide integrated logistics services including project cargo management solutions, vessel chartering, OOG shipping, port handling, breakbulk, RORO, heavy haulage & lifting, factory decommissioning solutions, international freight management and customs clearance.

PROTRANSER EXPORT CONVEYOR BELTS AS BREAKBULK TO AUSTRALIA

Protranser, our members from **China**, are glad to share an update of their recent regular logistics service to a client in **Australia** involving conveyor belts.

Their team has been selected to provide a monthly service from **Taicang, China** to the client's jobsite in **Dampier, Australia** by breakbulk vessel.

Protranser measured the weight of each unit to vary **between 25 and 43 tons**.

The company covered a wide scope of work for this service, including cargo retrieval from a local factory, port operations, chartering service for the breakbulk vessel, as well as transport **across 700 kilometres** to the jobsite of their client.

"On the road. For you, with you."

Protranser currently stand strong at over 100 professional experts in 11 regional offices throughout China, offering flexible solutions with value-added services and optimising the various modes of transportation. Over the years, Protranser have established a good cooperative relationship with local terminals, carriers and truckers.

PROJECT LOGISTICS MADE EASY WITH MANORA LOGISTICS

Manora Logistics are new members in **South Africa!** The company are project cargo and breakbulk specialists and offer comprehensive solutions.

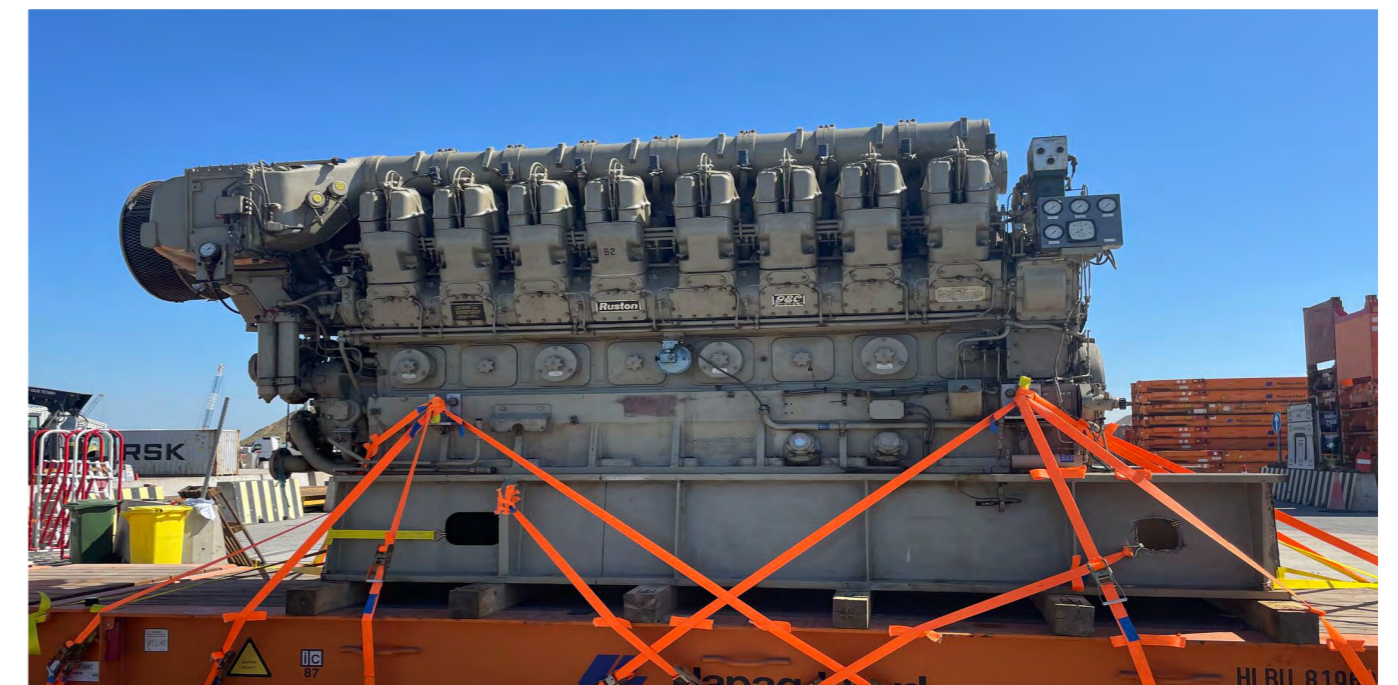

They are recommended by members as experienced and knowledgeable in their region, providing reliable, efficient, and prompt services. Registered with FIATA, their offices are located in **Cape Town**.

*"The Manora Logistics team is fully dedicated to ensure **professional and easy solutions** to every challenge. Each of us is a specialist in our field and together, we are committed to providing **practical and efficient services**."*

*We are a project cargo logistics service provider, specialised in big projects. Our experience and full scope of services demonstrates our **commitment, hands-on approach and problem solving skills** in oversized, complicated and project related transports."*

Some recent project shipments handled by Manora Logistics have included:

- Transport of **2 units of engines** from inland UK to Cape Town and local delivery to site. Door-to-door solutions were managed by Manora in South Africa and PCN partner, Hemisphere Freight Services in the UK.
- Transport of **2 x 26tn reels** from South Africa to Canada. Manora Logistics handled the loading, road transport, customs procedures and sea freight.
- Transport of **steel covers (30tn)** from inland Poland to South Africa. The steel covers were transported using two trailers and shipped on a 40ft flat-rack.

A WEALTH OF KNOWLEDGE & EXPERIENCE AT TSL AUSTRALIA

We are pleased to introduce **TSL Australia** as new members. The company have been operating for **20 years** and offer professional services in project and OOG cargo handling with comprehensive solutions.

Their responsive team have expert knowledge in complex projects and **Allan Hou** (Director of Business Development) says they welcome new partnerships with PCN members.

*"TSL Australia is a **Melbourne** based logistics company established by a team of experts in international transportation services. We are **experienced professionals** working with a wealth of knowledge gained over the years in Australia and we have one aim - to transport cargo quickly and efficiently."*

*"Our focus is on **reliable and effective services with tailored solutions**. Handling every project with care and integrity, we are skilled in predicting challenges and finding timely solutions to any issues that may arise."*

"With years of experience in project logistics, we service all major sea and airports in Australia including remote areas and bulk ports. Our project expertise

includes complete project logistics management & handling, breakbulk & RORO shipping, full & part chartering, OOG & heavy lift transportation by land & coastal, surveys & project planning, port & terminal operations and customs clearance.

Our team have experience in handling a range of projects including factory relocations, solar power farms, power plants, motor vehicles, yachts & boats, infrastructure & construction equipment, dairy & agriculture farming equipment, commodities & manufacturing and mining."

Some recent projects handled by TSL Australia include:

- A part-charter of **timber arches** for Melbourne's Tunnel projects.
- A **catamaran** loaded on a 40'FR and delivered to the water.
- A **patrol boat** shipped as RORO and then delivered to a Royal Australian Navy base.
- **Steel bundles** for a new Costco superstore in Melbourne loaded on MAFIs.

Please also **click here** for more examples of project cargo handled TSL Australia.

ROYAL CARGO TRANSPORT STEEL FROM VIETNAM TO ROTTERDAM

Royal Cargo Vietnam are glad to announce the completion of a transport including radiant & penthouse steel from Haiphong, Vietnam to Rotterdam, Netherlands.

This shipment consisted of **111 total packages** of steel structures, featuring a gross weight of **546 tons** with a total volume of **2,513 m3**.

Royal Cargo also delivered **20 oversize packages** with an approximate length of **12 meters**, and a weight of **20 tons**.

The company handled all transportation and loading operations, requiring two days to finalise the loading works due the **harsh weather conditions of a monsoon**.

Royal's operation was **disrupted several times** and they proceeded intermittently as a result of the monsoon.

"At Royal Cargo, no load is too heavy or long for us - we are one of the undisputed heavyweights in project transportation!"

BELOGG SHIPPING DELIVER BREAKBULK CARGO FROM PORT TO DOOR

Belogg Shipping are glad to announce a shipment they recently completely involving breakbulk cargo.

This cargo consisted of **2 x 40 MT** and was delivered from Port to Door.

"Thanks to our clients for giving us the opportunity to handle this breakbulk cargo."

Belogg Shipping handled **customs clearance, FOB handling** and **underhook delivery**.

Belogg thanks all stakeholders for their trust and for making this breakbulk shipment a smooth execution. Thanks for all of your trust and transparency, values of which Belogg has always operated with.

KGE BALTIC NOMINATED FOR PIPE TRANSPORT TO KAZAKHSTAN

KGE Baltic are glad to share a very interesting and challenging multimodal project involving loose pipes which were sent through Georgia to Kazakhstan.

The cargo measured **11.9 (L) x 1.67 (W) x 1.67 (H) meters** and weighed 11 tons each, taking around 45-50 days for complete delivery including transit clearance.

These loose pipes were transported via sea freight, as well as inland haulage to **Atyrau, Kazakhstan** via **Poti, Georgia**.

Five open flat-bed trucks were utilised for this shipment, with KGE later **transloading the cargo** into open-top containers for transport across the sea.

Ten pipes were transhipped after their ocean travel onto tilt trucks, before continuing with land transportation via **Azerbaijan** to the final destination in Kazakhstan.

KGE's main challenge was to shorten the transit time of the cargo by sea, in which weather changes caused issues.

The company planned their route accordingly, allowing them to reach their destination **within the time frame** given.

"We provided our customer with daily tracking and monitored the shipment from start to finish, which resulted in satisfactory feedback."

TSL AUSTRALIA DELIVER UNDER PRESSURE WITH PRECISION AND EXPERTISE

TSL Australia are pleased to share a shipment they recently completed to **Auckland, New Zealand** involving oversized laminated timber arches.

This cargo consisted of **18 packages** with a total volume of **294 cbm**, and a weight of **68,700 kg**.

Some of these oversized timber arches measured over **22 meters in length**, and **4 meters in width**.

The project was not without its challenges. Production delays and last-minute packing list changes left their client struggling to secure a suitable vessel.

With only one week until the loading deadline, TSL explored every available option and successfully secured a charter vessel with deck space, keeping the shipment on-track.

However, securing the vessel was just the beginning. The cargo required **strict on-wharf fumigation** due to seasonal regulations, with limited daylight hours for loading.

To add to the complexity, **delayed truck arrivals** meant fumigation had to be split over two days, requiring careful coordination to avoid disruptions.

TSL worked closely with agents, fumigators, stevedores, and the vessel crew, adapting in real time to ensure the shipment was **successfully loaded to schedule**.

"Our expertise, industry relationships, and ability to manage unpredictable situations make us a trusted partner for complex and urgent shipments."

MS GLOBAL DELIVER MACHINES FROM PORT KLANG TO PENANG

MS Global Freight Solution are proud to report on their recent job involving the movement of machinery within their home country of Malaysia.

The scope of this work for MS Global included port handling, trucking from **Port Klang**, and transport from wharf to **Penang**.

This shipment included five packages weighing a total **89,100 kg** and a volume of **144 cbm**, with the largest item measured at **5.40 (L) x 4.74 (W) x 3.55 (H) meters** and **76,400 kg**.

MS Global Freight Solution, located in Port Klang, Johor Bharu and Penang, Malaysia, can handle air & sea heavy lift project cargo from/to Malaysia including East Malaysia (Borneo Island).

We provide feasibility study, road survey, method of statement, execution and supervision of packing, transportation, loading, lashing, unloading and placement at consignee's site. We arrange for breakbulk vessels, open tops, flat racks and maintain close relationship with many ship owners.

KORMAN REDUCE THE COMPLEXITY OF CHALLENGING PROJECTS

We are pleased to report **Korman International** are new members in **Taiwan**. The company was founded in **1992** and are recommended by members for professional solutions in project, breakbulk and OOG cargo handling.

*"Korman prides ourselves on providing a wide variety of practical, value-added and reliable logistics solutions to meet challenging requirements in the most **efficient, economical and safest manner**. We deliver comprehensive and proven sea, land, rail and air services with the **knowledge, expertise and resources** to achieve great results."*

*"We share our wealth of **local logistics experience** and reduce the complexity of complicated projects. Specialised in the transportation of large, heavy and high-value cargo for industrial projects, our team provide **professionally designed solutions** for the whole logistics process."*

"Korman has been engaged in the shipping industry for 33 years and has handled a huge range of project based, breakbulk and OOG cargo between 20-2000tns per project. Our industry experience has included construction, steel, wind power & solar panels, oil & gas, engineering equipment, mining, barges, cranes, locomotives, yachts, power & energy, automobile, manufacturing & production, agriculture, food processing and many other oversized machinery & equipment."

A recent project shipment handled by Korman in Taiwan arrived at Keelung from Antwerp, Belgium for delivery in Taipei. The shipment consisted of 3 breakbulk pieces along with 9 x 40'HC, 1 x 40'FR and 1 x 20'OT. The destination site had very narrow access for the final delivery but Korman managed the operations carefully and safely.

The 3 breakbulk pieces measured as follows:

- 101tn - 995 x 498 x 380cm
- 60tn - 400 x 360 x 302cm
- 33tn - 410 x 190 x 356cm

EXG EXECUTE COMPLEX OCEAN FREIGHT OPERATION FROM CHINA

Express Global Logistics (EXG) have completed a significant ocean freight operation, transporting a substantial cargo shipment from **Northern China** to **Eastern India**.

This recently completed project involved the transportation of **134 packages** with a combined weight of **1,415,100 kg**, and a volume of **1,022 cbm**.

The shipment comprised **55 standard packages** weighing **582,100 kg**, alongside **79 specialised packages** weighing **883,488 kg**, highlighting EXG's capability to handle diverse cargo requirements within a single operation.

From the initial planning stages to final delivery, each phase of the operation was meticulously managed to ensure **the cargo arrived safely and to schedule**.

"The successful movement of such substantial cargo volume between Northern China and Eastern India showcases our robust international shipping network and technical expertise."

EXG leveraged its **strategic partnerships** with **key carriers** and port authorities to optimise the shipping route and ensure smooth customs clearance processes.

This successful operation reinforces EXG's position as a **leading provider** of ocean freight services in the Asia-Pacific region.

BALENA PROJECTS TRANSPORT HEAVY TRANSFORMER AT HOUSTON PORT

Balena Projects are glad to showcase a direct discharge operation they recently completed involving the movement of a transformer at **Houston Port**.

This hefty unit weighed **103,100 kg**, requiring precise planning and flawless execution.

Once carefully loaded using **specialised equipment**, including polyester round slings, Balena Projects secured the shipment for transit.

Steel chains, wooden dunnage and stoppers were strategically positioned following **comprehensive safety protocols**.

For the direct discharge operation, the trailer was stationed at the terminal on-time, with coordination between the trucker and terminal **ensuring a seamless process**.

"This project demonstrates our commitment to managing every step with care, ensuring efficiency and reliability at every stage."

GO GAUGE PROJECTS MOVE HEAVY LIFT VALVES FROM ITALY TO INDIA

Go Gauge Projects recently executed a heavy lift project from Port Cagliari, Italy to Mumbai, India.

The heavy lift cargo involved with this project consisted of a **110-ton valve** and two **60-ton valves**.

Go Gauge Projects covered a wide scope of work during this transport:

- Vessel agency & chartering a heavy lift vessel
- Engineering lifting calculations & spreaders at load port
- Proper stowage & securing solutions
- Seamless loading coordination

"With our global network & expertise, we ensure smooth handling of heavy & OOG cargo worldwide."

15TH CELEBRATION & CONFERENCE

Our first ever gathering was held in London and 15 years later we are back ... with a bang! Book now so your place is secured.

Our event will be held from 26-28 October 2025 at the Park Plaza Victoria Hotel. Perfectly located in the centre of London with Westminster, Buckingham Palace, top musicals and great restaurants all just a 10-minute walk away.

Sunday 26 October 2025

10:00 - 14:00 Private London Highlights Tour
17:30 - 20:00 Drinks Reception & Games
20:00 - 21:30 Welcome Dinner

Monday 27 October 2025
